3 How to Take a Passport Photo (Step by Step)

Use a good camera
Use your phone's rear camera in good lighting.

Find a clean background
Stand in front of a plain white or light-coloured wall.

Position yourself correctly
Keep your face centered. Look straight at the camera.

Use natural lighting
Face a light source. Avoid shadows.

Let our AI do the rest
We'll crop, resize and prepare it to meet official requirements.
